

MEMORANDUM

TO: Mayor Kennedy and Members of the City Council

FROM: Kevin J. Murphy, City Manager 

DATE: February 21, 2017

SUBJECT: COUNCIL MOTION OF 1/24/17 - C. Leahy/C. Elliott - Req. City Mgr. provide City Council with up to date reports and minutes of all meetings pertaining to the construction of the new high school.

Dear Mayor Kennedy and members of the City Council,

As part of the Lowell High School project, the City has contracted with our web vendor to create a newly designed subsite of lowellma.gov focused exclusively on the high school project. I anticipate this full site will be launched in the spring and will continue throughout the process from feasibility to final closeout of construction.

While the subsite is being developed, we have created a temporary page featured directly on the lowellma.gov homepage. “The Lowell High School Project” page consists of upcoming meetings; previous meeting minutes; reports and presentations; as well as useful documents such as MSBA regulations and the LHS Educational Program. The City will continue to update this page as we transition to an expanded website. The page can be accessed at any time by visiting <http://www.lowellma.gov/lhsproject>.

Long term, the LHS project website will provide documents, photos, time-lapse video, and other useful features to keep constituents and stake holders informed and engaged throughout the process.

Please let me know if you have further questions.
